PROFESSIONAL SUMMARY

Full Stack Developer based in Jerusalem, with a background in digital marketing, web design and content creation. I build responsive web applications using React, Next.js, Node.js, Express, MongoDB and Django, with a strong focus on clean interfaces, structured backend logic and practical user experience. I am looking for a web development opportunity where I can contribute to real products, collaborate within a professional team and continue growing technically.

SELECTED PROJECTS

FitWell — Full Stack Health & Fitness Platform

[Django](#) · [Django REST Framework](#) · [PostgreSQL](#) · [JWT](#) · [Swagger](#) · [Docker](#)

Built a health and fitness platform focused on API structure, content management and user-oriented backend features.

- Developed REST API logic for articles, comments and user-related features.
- Implemented authentication, documentation and deployment-ready project organization.

OpticGlass — Luxury Eyewear E-commerce Application

[React](#) · [Vite](#) · [Tailwind CSS](#) · [Node.js](#) · [Express](#) · [MongoDB](#)

Built a modern premium eyewear e-commerce application with a strong focus on product presentation and responsive UI.

- Created product catalog, detail pages and reusable frontend components.
- Structured frontend and backend logic for an e-commerce-style application.

Food App — Restaurant & Ordering Interface

[React](#) · [JavaScript](#) · [CSS](#) · [API Logic](#)

Built a responsive food application to present meals, categories and ordering flows in a clear interface.

- Developed mobile-friendly layouts and category-based UI structure.
- Improved visual hierarchy, component organization and user experience.

Digital Business Card App — Full Stack SaaS-style Application

[React](#) · [Node.js](#) · [Express](#) · [MongoDB](#) · [JWT](#) · [Tailwind CSS](#)

Built a digital business card platform with authentication, protected routes and dashboard-oriented features.

- Implemented user authentication, protected routes and role-based logic.
- Connected frontend and backend features with a structured full stack approach.

EXPERIENCE

Full Stack Developer — Personal Projects & Portfolio

2024 – Present

- Built and deployed web applications using React, Next.js, Node.js, Express, MongoDB and Django.
- Developed frontend interfaces, backend APIs, authentication systems and database-connected features.
- Used Git, GitHub, Vercel, Render and MongoDB Atlas for development and deployment workflows.

Digital Marketing & Web Creator — Personal Projects

2024 – Present

- Created digital concepts combining web design, branding, landing pages and content strategy.
- Applied marketing principles to improve messaging, visual hierarchy and project presentation.

IDF Service — Guivati Unit

2019 – 2022

- Completed full military service in a structured and high-responsibility environment.
- Developed discipline, reliability, teamwork and the ability to stay focused under pressure.
