PROFESSIONAL SUMMARY

Full Stack Developer based in Jerusalem with digital marketing background. I build responsive web applications using React, Next.js, Node.js, Express, MongoDB and Django with focus on clean interfaces and structured backend logic. Looking to contribute to real products in a professional team.

KEY PROJECTS

FitWell — Health & Fitness Platform

Django · Django REST · PostgreSQL · JWT · Docker

Full stack platform focused on API structure and user features.

- Developed REST API logic for articles and user features.
- Implemented authentication and deployment-ready organization.

OpticGlass — Luxury E-commerce

React · Vite · Tailwind · Node.js · Express · MongoDB

E-commerce application for premium eyewear with responsive UI.

- Created product catalog and reusable frontend components.
- Structured frontend and backend logic for e-commerce.

EXPERIENCE

Full Stack Developer — Personal Projects & Portfolio

2024 – Present

- Built web applications using React, Next.js, Node.js, Express, MongoDB and Django.
- Developed frontend interfaces, backend APIs, authentication systems and database features.
- Used Git, GitHub, Vercel, Render for development and deployment workflows.

Digital Marketing & Web Creator — Personal Projects

2024 – Present

- Created digital concepts combining web design, branding and content strategy.
- Applied marketing principles to improve messaging and project presentation.

EDUCATION
