

SHAY ACOCA

Full Stack Developer

Jerusalem, Israel | shayacoca20@gmail.com | Portfolio: shay-acoca-portfolio.vercel.app | LinkedIn: linkedin.com/in/shay-acoca-046311302 | GitHub: github.com/Sy2force

PROFESSIONAL SUMMARY

Full Stack Developer based in Jerusalem, Israel, with a background in digital marketing, web design and content creation. I build modern, responsive web applications using React, Next.js, Node.js, Express, MongoDB and Django. My projects include e-commerce platforms, dashboards, REST APIs, authentication systems and clean user interfaces. I am looking for a developer role where I can contribute to real products, learn from a professional team and continue growing as a developer.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Design, Framer Motion

Backend: Node.js, Express.js, Django, Django REST Framework, REST APIs, JWT Authentication, MongoDB, PostgreSQL

Tools & Deployment: Git, GitHub, Vercel, Render, MongoDB Atlas, Postman, Docker, Swagger

Digital & Product: Web Design, Landing Pages, Digital Marketing, SEO Basics, Content Creation, UX Writing

SELECTED PROJECTS

FitWell — Full Stack Health & Fitness Platform

Django · Django REST Framework · PostgreSQL · JWT · Swagger · Docker

Built a full stack health and fitness platform focused on API structure, content management and user-oriented features.

- Developed REST API logic for articles, comments and user-related features.
- Implemented authentication structure and backend data management.
- Added API documentation and deployment-ready project organization.
- Focused on clean architecture, maintainability and practical backend workflows.

OpticGlass — Luxury E-commerce Web Application

React · Vite · Tailwind CSS · Node.js · Express · MongoDB

Built a modern e-commerce web application for premium eyewear with a strong focus on product presentation, responsive UI and user experience.

- Created product catalog, product detail pages and responsive frontend layouts.
- Structured frontend and backend logic for an e-commerce-style application.
- Worked on authentication structure, admin-oriented logic and reusable components.
- Focused on clean visual design, premium branding and deployment-ready architecture.

Food App — Restaurant & Food Ordering Interface

React · JavaScript · CSS · API Logic

Built a responsive food application designed to present meals, categories and ordering flows through a clean and user-friendly interface.

- Developed a modern responsive interface for food browsing and ordering.
- Built reusable components and category-based UI structure.
- Focused on mobile-friendly layouts and simple user experience.
- Improved visual hierarchy and frontend organization.

Digital Business Card App — Full Stack SaaS-style Application

React · Node.js · Express · MongoDB · JWT · Tailwind CSS

Built a digital business card platform with authentication, dashboard logic, protected routes and dynamic card management.

- Implemented user authentication and protected routes.
- Built dashboard-oriented features and role-based logic.
- Created responsive interfaces for card creation and management.
- Connected frontend and backend logic with a structured full stack approach.

EXPERIENCE

Full Stack Developer — Personal Projects & Portfolio

2024 – Present

- Built and deployed several web applications using React, Next.js, Node.js, Express, MongoDB and Django.
- Developed frontend interfaces, backend APIs, authentication systems and database-connected features.
- Improved project structure, UI consistency and responsive user experience across multiple applications.
- Used Git, GitHub, Vercel, Render and MongoDB Atlas for development and deployment workflows.

Digital Marketing & Web Creator — Personal Projects

2024 – Present

- Created digital concepts combining web design, branding, landing pages and content strategy.
- Applied marketing principles to improve messaging, visual hierarchy and project presentation.
- Worked on digital positioning, user experience and business-oriented website structure.

IDF Service — Guivati Unit

2019 – 2022

- Completed full military service in a structured and high-responsibility environment.
- Developed discipline, reliability, teamwork and the ability to stay focused under pressure.
- Learned to adapt quickly and work effectively in demanding conditions.

EDUCATION

HackerU — Full Stack Development

2024 – 2026

Training focused on frontend and backend web development, including React, Node.js, MongoDB, APIs, authentication, project architecture and deployment.

Habetzefer, Tel Aviv — Digital Marketing & Content Creation

2024

Studied digital marketing strategy, content creation, social media, branding and campaign structure.
